VALUABLE REAL ESTATE
AT AUCTION.

NOTICE IS HEREBY GIVEN, that the undersigned will sell at auction (unless previously sold at private sale) on Saturday, the first day of November next, at ten o'clock A. M., at the American House in the city of Milwaukee, the following tract of land, viz:—The east half of the north east quarter of section eleven, town seven, north of range sixteen east; containing eighty acres. And the north west quarter of the south east quarter of section ten, town seven, north of range sixteen east; containing forty acres.

This land lies in the extreme part of Jefferson County, about thirty-five miles from Milwaukee, five from the village of Summit, three from Oconomowoc, and 3 or 4 from the plank road; in a rich and truly beautiful farming country. The first named tract is one of the most beautiful eightys in the State, lying high and dry; it is well timbered, has 27 acres neatly cleared and fenced, a small block house, and is bounded on the south and by the Oconomowoc River. The other tract is partly dry marsh, and partly timbered land, with about eight acres cleared, and has on it a small log house, and an excellent Saw Mill, with cast iron gearing, all nearly new, which cost $1,600. This mill is erected upon the Oconomowoc River, has a plenty of water all the year, and the same damned ample to drive a good Flouring Mill in addition, which is greatly needed in that section.

These two tracts lie upon opposite sides of the Oconomowoc River, from one-fourth to one-half a mile apart, and to any one wishing a neat farm and a mill property, near, this sale affords a rare chance. These two tracts will be sold either separate or together. Sale POSITIVE, so sham bidding, and terms made known at the time of sale. Persons disposed to purchase are especially requested to call and examine the property, and may bargain with Messrs. Spence, upon the premises, or with the undersigned at their office in the city of Milwaukee.

N. B. Title perfect and free from all incumbrance.

THIS SOCIETY will receive proposals for Life Assurance, through the undersigned, as Agent for this City, on terms highly favorable to applicants.

Prospectuses may be had on application, together with blank forms of proposal, and such other information as parties may desire.

The following are among the advantages offered by this Institution:—

The Guarantee of a large capital securely invested.

The peculiar benefits secured by the principle of the Loan Department.

The payment of Premiums Half-Yearly or Quarterly, by parties assured for the whole term of Life.

Thirty Days are allowed after each payment of Premium becomes due, without forfeiture of Policy.

Part of the Capital is permanently and securely invested in the United States.

Wives may insure the lives of their husbands for their own and the benefit of their children.

The receipt of the Society is not necessary to a transfer of the Policy.

For all practical purposes, this Agency is essentially an American Company, strengthened by a large [illegible] Capital safely invested in London; equally available to American as to British policy holders. All losses are settled by the New York Board, and paid by Bills drawn on the London Office. Thus the Guarantee Fund in New York remains untouched, so that in case any dispute should arise between the society and policy holders, funds are on the spot, subject to the control of our Courts.

Medical Examiners fees are paid by the Society.

IMPORTANT TO THE PUBLIC!

THE following advertisement was published in May, 1849, in the "Boston Daily Times," and various other newspapers in the United States, by James G. Wilson, the owner of the "Woodworth Patent," shortly after I had invented my "PATENT STATIONARY CUTTING, PLANING, TONGUEING, AND GROOVING MACHINE," throughout the United States:

"PLANING MACHINES.

"I take this method of answering the frequent inquiries, by letter and otherwise, as to my claim, which is known to the public through the papers, of the Stationary Knife Planing Machines attempted to be introduced upon several persons in ignorance of their true worth. I would state for the information of the enquirers that they will not find a planing machine now offered by several pretended inventors, which is not within the true volume of the Repository of Arts, described in the 16th volume of the year 1821. A copy of a machine was patented in this country, in the year 1827, by Albert B. Lawrence, twenty years since, and abandoned about the same, the rights of West Troy, N. Y., and afterwards by the original inventor; I do not wish to caution the public to know that after five years, to some, that these machines, not proved in that [illegible] years before with [illegible] after [illegible] this is not worth [illegible] I will furnish on [illegible] but I can refer to [illegible] Knife Machines [illegible] by the [illegible] JAMES G. WILSON."

May 19, 1849.

I now offer to pay any person over six or hand of such a machine as my claim until I invented the same, and make the same as described in the month of August, 1848, and secured the patent (as described), who could not do so much work, and do it as well as mine. In reply to the above statement, I will offer ONE THOUSAND DOLLARS more, as in any one of the above, to pay the person to prove that [illegible] planing, tongue and grooves with those [illegible] ONE THOUSAND DOLLARS paid for the [illegible] of the "Woodworth" machines. The trial to be made at my Steam Mill, Border St., East Boston, Mass. It is the equal of my [illegible].

BRAND THE FALSEHOOD!

ADOPTED CITIZENS READ!

As a last and desperate expedient to defeat Mr FARWELL, the Kenosha *Democrat* and *Commercial* of this city have invented and circulated the story that he was a Native American, and opposed to extending the rights and privileges of citizenship to persons of foreign birth. The charge was thus made in the *Kenosha* paper of last week:

We have it from *the best authority*—a gentleman of foreign birth, high in the confidence of the people—that Farwell, the abolition whig candidate for governor, not many years ago *was active in getting up a petition to the legislature against permitting residents of foreign birth to vote* on the admission of Wisconsin into the Union. Verily, this abolition candidate for governor is a Native American as well as a national whig.

The *Commercial* of Wednesday last made haste to transfer this story to its columns, and improved upon it by the following invention of its own:

In addition to the above, we are enabled to state that Mr. Farwell not only circulated the petition, but signed it, and the name of LEONARD J. FARWELL is now on record, *in opposition to extending the right of suffrage to foreigners.*

We did not doubt for a moment that this charge, though so boldly and unqualifiedly made, was an ENTIRE FABRICATION, but before so branding it, wrote to Mr FARWELL to ascertain the fact beyond cavil, or dispute. To that letter we yesterday received a brief Telegraphic despatch, which we herewith subjoin, precisely as it came to us:

MADISON, Oct. 24, 1½ P. M.

To RUFUS KING, Milwaukee:

I have never signed such a petition—brand it as a falsehood. I have always been a *true* friend of the Foreigners. L. J. FARWELL.

And now what have the authors of this foul calumny to say in excuse for their gross and unwarrantable fabrication? What reason or explanation can they give to the public, or to their own party, for attempting to palm off upon them, as true, *so base a canard*? Above all, what apology can they offer to our ADOPTED CITIZENS for this vile attempt to obtain their votes under "*false pretences*," and to array them in opposition to Mr. FARWELL by a wilful and inexcusable fabrication?

ADOPTED CITIZENS! will you not rebuke, as it deserves, this last and weakest invention of the Hunker Press?

ELECTORS READ!

Don't fail to read the account given by our correspondent "MINER," of the meeting at Mineral Point, and the discussion between Col. HUGHES, the Whig Candidate for Lieutenant-Governor, and MOSES M. STRONG, the champion of Western "Democracy." Mark the explicit and unequivocal avowal of Col. HUGHES, that he is *in favor of* "BANKS," and the ground taken by Mr. STRONG, for himself and party, *in opposition* to them.—East, West, North and South, the WHIGS of the State occupy the same Platform on that question, and go heartily and unanimously *for Banks*.—Their opponents, on the other hand, are either *silent, or HOSTILE*. Can any true friend of Banking, with these facts staring him in the face, hesitate to give his vote and influence to LEONARD J. FARWELL and his colleagues on the Whig Ticket.

A MUSS.—It is an old saying that "the clearing up shower is the heaviest"—and another that "it is darkest just before." If there be any truth in the principle involved in these wise sayings, then the unfortunate residents on Wisconsin street and those adjoining may surely hope for a good time coming: for surely there never was such a Muss since the time of the general upheaving. Sidewalks torn away, and pitched incontinently into the marsh—engine house lowered six feet—Main and Milwaukee streets barely passable—basement stories turned into iron-columned stores—and the streets generally turned into a fallow ground.

Never mind—the Aldermen of the 1st and 2nd have struck hands together, and promise to go ahead like a band of brothers, and work like beavers till everything is O. K. again. So mote it be?

MEMOIRS OF JUDGE STORY.—Mr. W. W. Story, who has recently sailed for Italy, left behind him the biography of his distinguished father, ready for publication.

THE COMMERCIAL'S TWO FACES.

On the 18th instant the *Commercial Advertiser*, Mr. UPHAM's recognized organ, in the course of a labored attempt to disparage and decry LEONARD J. FARWELL, the Whig candidate for Governor, indulged in the following insulting language towards the MECHANICS and WORKING-MEN of our State:

Where, how, and when did Mr. Farwell become qualified for such an office? Did he ever serve in the Legislature? Has he ever been in the public councils of the State, or Territory, or held any place of confidence or trust among us? Who is he, and where has he been educated? It is said he was originally a *mechanic*, and is consequently entitled to great credit for having *made himself*. This is all honorable, highly so—*no one will attempt to controvert it*. We have good mechanics, and lots of them among us, men of intelligence and worth, some of whom are well educated, capable men, men of genius, capacity and talents, *but how many are there of that class who have ever aspired to the office of Governor of Wisconsin, or pretended that they had the requisite talents, experience, or qualifications for such an office.*

This modest diatribe aroused the lively indignation of the "class" thus coolly notified that they had no business to "aspire" to the office of Governor of Wisconsin, and the *Commercial* was subjected to a course of "rappings" to which the Rochester performances were mere trifles. Under the influence of this discipline, and in the desperate hope of retrieving its serious blunder, the *Commercial* turned a short corner, and now talks of LEONARD J. FARWELL in this wise:

L. J. Farwell *is not a mechanic*, but a rich retired merchant, *who has fattened on the hard earnings of the poor, until made wealthy by the sweat of their brows.*—Commercial of 23d.

Contrast the two positions thus taken by Mr. UPHAM's "home organ," in relation to Mr. FARWELL. In the first, Mr. FARWELL is allowed to be a good enough MECHANIC, but is insolently reminded that he belongs to a class who ought not to "aspire" to be Governor, or "*even pretend that they have the requisite qualifications for such an office.*" In the next, Mr. FARWELL is represented as "*not* a Mechanic," but a "rich, retired Merchant," who has grown fat "on the hard earnings of the poor," and has made his money "by the sweat of their brows!" Was ever a more paltry specimen of Demagoguism than this? The *Commercial* first *insults* the MECHANICS, and then turns round and *traduces* the MERCHANTS. It characterizes the former as a class who ought not to "aspire" to public station, and the latter as a set of harpies, feeding and fattening upon "the hard earnings of the poor!" What say our MERCHANTS and MECHANICS to these injurious and ungrateful aspersions? What have they to reply to the miserable party tricksters who employ *such* arguments to compass their ends? Will they sanction by their votes these wanton and uncalled-for imputations upon Mr. FARWELL, as an individual, or upon the pursuits in which he has been honorably and successfully engaged. We mistake their spirit and intelligence if they do not teach these *Commercial* Libellers a lesson that they will remember all their lives. LEONARD J. FARWELL will receive the almost *undivided* vote of the MERCHANTS and MECHANICS of Milwaukee!

THE COMMERCIAL BOUND SOUTH!

The *Commercial* of yesterday takes open ground against Mr. FARWELL, because he is opposed to the extension of Slavery, and to the Fugitive Slave Law, and is in favor of abolishing Slavery *wherever Congress possesses the Constitutional right* to interfere. This "Doughface" organ has thus fairly committed itself and its candidate to the Southern Platform; and hopes to drive or drag the "democracy" of this State into the unqualified support and approval of Slavery and the Slave Law. And this too while both the Senators and all the Representatives from this State are *pledged* to precisely the same doctrines which Mr. FARWELL avows, and though the *Commercial* itself, *only last fall*, sustained and defended *this identical Platform!* Could servility stoop lower? Will the masses of the "democracy" follow their leaders in this self-stultification and abasement? Are they prepared, with the *Commercial*, to forswear all their Free principles so recently professed and to put on the livery of the "Boss Doughface?" Shall WISCONSIN abandon the Ordinance of '87, and strike the FREE FLAG under which she was admitted into the Union?

"DEMOCRACY" vs. BANKS.

Democratic Doctrine.—One principle of the Democratic party of Wisconsin, as expounded by Mr. Strong, on Monday evening last, is that *the majority should not be allowed to govern!* or in his own language, if a majority of the voters of Wisconsin say at the polls that they want Banks, *the legislature should not pass an act in accordance with their wishes!* Truly Democracy is progressive.—*Min. Pt. Trib.*

This is the ground taken by the party Leaders in the West. MOSES M. STRONG, the favorite champion of the Iowa "democracy," holds that whether THE PEOPLE vote for Banks or not, *they ought not to have them.* On this side of the State, the party leaders and presses either *dodge the issue altogether*, or set up the "false pretence" that the vote of the People will be binding on the Governor and Legislature. It is not so. Though the People should vote for Banks, it is *discretionary* with the Legislature to pass a Banking Law, or not. If the counsels of such Democrats as MOSES M. STRONG prevail *no such law will be passed.* BANK MEN!—Vote for *no* candidate who occupies a hostile or even *neutral* position on this question. *He that is not for us is against us!*

THE DON STILL "MUM!"

More than two weeks ago, Mr. UPHAM, in reply to the urgent solicitations of party friends, *pledged himself* to come out openly before election on the subject of Banks. The time specified by himself for this public avowal of his sentiments, has gone by, and he is still MUM. He refuses to say whether he has changed his views on the question, or whether he is still, as in 1846, *opposed to all Bank and Bank paper.* Under these circumstances, many of the staunchest Democrats of our City do not hesitate to proclaim their determination to vote for LEONARD J. FARWELL, an ardent, avowed and steadfast friend of a Sound Banking System for Wisconsin. They will not support THE "MUM" CANDIDATE.

THE PEOPLE FOR "BANKS."—At the Fifth Ward Democratic Caucus, on Thursday evening, the following strong resolution in favor of Banks was put through by acclamation:

Resolved, That the people of this State, and especially the voters of this Assembly District, are in favor of Banks and Banking Institutions, and that we pledge ourselves to support no man for the Senate or Assembly, unless he is pledged to the support of a General Banking Law, at the next session of the Legislature, provided a majority of the people shall vote for the same.

We call the attention of the Fifth Ward Democracy to the *fact* that Don A. J. UPHAM *refuses* to pledge himself for Banks, and that *three* of his colleagues on the State Ticket, Messrs. BURNS, JANSSEN and ESTABROOK are *on record* as utterly *opposed to Banks and Bank paper!*

THE CONTRAST.—It is not a little interesting to notice the vastly different estimation in which Kossuth and his companions in exile are held in Austria and in this country. Lately the whole agency of the minions of that despotism were called out to witness the impotent malice of the Government displayed by hanging upon the scaffold boards inscribed with the names of the Hungarian exiles; while the patriot Kossuth and his brave companions were at that time embarking upon the United States frigate to be brought to America to receive the heartfelt welcome and sympathy of twenty-three millions of freemen.

THE BANK QUESTION SHIRKED.—The Sheboygan *Mercury* has been trying to get Mr. Hobart to declare his sentiments on the Bank Question, but has no better success than we have with the Don. The *Journal*, which supports Mr. Hobart, says that it "really *does not consider that the question relative to banks is now before the people*" !!

Happy ignorance! What under the sun do you suppose *is* before the people?

ROCK CO. CONVENTIONS.—The whigs of Rock were to meet yesterday to nominate their candidates for county offices.

Calls for Assembly Conventions were out for the Janesville district to be held on the 23d, for Newark, Rock Co, and Johnston, Milton &c. for Monday, 27th

Credit to Whom Credit.

The Milwaukee *Sentinel* is so very partial to papers of its own political stripe, that it copies our local items, and credits them to the *Mercury.*—*Journal.*

Entirely unintentional, we assure you. And to make amends, we credit you at once with the following "items":

No. 1. In the Second District, Hon. John D. Murphy is nominated. This is also a good nomination. Mr. Murphy is a young man of promising talent and unswerving democracy—and we feel a deep interest in his success at this time. * * *

No. 2. We have been furnished with the following Protest against the nomination of Mr. John D. Murphy for Member of Assembly, signed by over one hundred Democratic voters in this District.

Here follows the protest, signed by 108 voters, stating that Mr. Murphy won his nomination "by intrigue and peculation, and is therefore unworthy of their support"—and concluding by nominating E. W. Baldwin for the same office.

The Canvass in the West

We publish in another column an interesting account of the discussion between Col. HUGHES and Mr. STRONG at Mineral Point, particularly interesting as it shows the game of the regular Democracy in the South Western Counties. The *Tribune*, in its notice of the discussion, says:

Mr. Strong produced the old rejected Constitution, from which he proved clearly that the Democratic nominee for Governor, was *once*, not only opposed to banks, but was in favor of fining and imprisoning any man who should be caught in Wisconsin, with a bank bill in his pocket. But Mr. Strong could not say what Mr. Upham's *present* views are on banks. The closing scene of the meeting was decidedly rich, and we imagine Moses can tell by this time, the meaning of "*Caught a Tartar.*"

The people in the East are not allowed to know any more of Mr. UPHAM's opinions than are those in the West. They know how he *used* to stand, and don't like the position at all. Moreover they have heard, and can hear of no change. MUM's the game! Shall it win?

Ought not Negroes to be excluded from a Residence in the North!

This is a question deserving serious consideration. We have reflected upon it much, and the more we reflect upon it, the better we are satisfied that the peace and safety of Northern communities demand that the ingress of runaway slaves into Northern States should be entirely prohibited.—*Sheboygan Lake Journal.*

This "extraneous issue" has just been raised by the Sheboygan Lake *Journal*, Mr. Speaker HOBART's "home organ," and a Hunker sheet of the deepest dye. It thinks the People have nothing to do with the "Bank question," and so prosperous to preach a crusade against the "Negroes." Isn't this a rich sample of "democracy?"

NOT QUITE "TREASON."—The "sympathizers" at Syracuse, who aided, or connived at the escape of JERRY, a fugitive slave, from the hands of the U. S. authorities, and who, for this offence, were threatened with the pains and penalties of Treason, have, it appears, fortunately escaped the halter. Judge CONKLIN, of the U. S. Court, before whom they were arraigned, has decided that they were guilty of a "misdemeanour" only, and has held them to bail to appear and answer this charge at the next term.

"BOLTING DEMOCRATS."—We notice that the Sheboygan *Journal*, old Hunker of the oldest sort, insists upon it that Mr. WEBSTER is nominated for Assembly by the "bolting democrats" of the Eastern district of Kenosha County! We supposed that the *Journal* would entitle him the regular candidate.

We called Mr. Webster's friends "bolters," because they went into Convention, and left it because they found themselves in the minority on certain resolutions.

ASSEMBLY NOMINATION.—The democratic Convention of the Fourth and Fifth Wards unanimously nominated HENRY L. PALMER, as their candidate for the Assembly. This is a highly respectable nomination. Mr. PALMER is a gentleman of character and ability, and will do credit to himself and the city. If a democrat is to represent the District, we know of no one more worthy of the honor than Mr. PALMER.

☞ We have seen no explanation yet, of the following mysterious paragraph from the Madison *Democrat*, the official organ of the party, in relation to Dr. LADD, the "regular" candidate for State Superintendent. Perhaps the *Commercial* can interpret it. There it is.

"We had always supposed the Doctor was a Graduate, though we never knew of what Institution. *On the day of the State Convention*, however, *the Doctor gave us reason to doubt it.* We should like to know the facts in the case.

☞ The *Commercial* falsely complains that the Whig presses have "abused" the democratic candidates. The Green Bay *Advocate*, whose editor is one of these Candidates, says, truly and frankly:

While upon this subject, let us express our thanks to our contemporaries in the State, Democratic and Whig, for their kind and gentlemanly notices of our name in connection with a State office. And we are sure our associates upon the ticket feel as grateful as ourself, that as a general thing the most honorable mention has been made of them by the opposition.

Correspondence of the Sentinel.

The Democratic Platform—Banks, &c.

MINERAL POINT, Oct. 21.

Messrs. Editors:

There was once a monster, if we may credit Grecian Mythology, like many people at the present day, of a very inquisitive disposition—ycleped the *Sphynx*, who took summary vengeance on all those unable to solve its mysterious riddles. Questions of the most intricate and perplexing nature ever propounded—many of them susceptible of diametrically antagonistic solutions. Fortunately for the Democratic party, or its avowed leaders, this *monstrum horrendum*, bid the world a final adieu, before the day of their birth was recorded in the political Calendar: else might we be called upon to write the epitaph on the tombstones of these doctors of Democratic faith.

But there is an Inquisitor who will not allow his questions to be evaded, and who likewise possesses the power to summarily punish all equivocations and prevarications—and wo to him who fails to render satisfaction!

This Inquisitor is—*the people*—and the first great problem proposed for solution, is, "*The Democratic Platform*"—*what is it?* To one uninitiated, Butler's description of the New Light would seem to furnish the most reasonable answer:

> "'Tis a dark lantern of the spirit,
> Which none see by but those that bear it."

It is like a shield, which one observer will swear to be red—another will affirm as positively that it is green. It is the modern Proteus, presenting itself to the imaginations of its adherents in whatever shape or form best harmonizes with their present wishes or designs. But in this section of the country, this country of British Sovereigns and Five Franc pieces—the illusion is dispelled—the misty veil which has heretofore enveloped in its folds the sacredly cherished principles of Democracy has been rent in twain, and there, blazoned in flaming capitals, glitters the pith—the substance—the *all* of democracy—"NO BANK!"

The circumstances are these:—It is probably known to your readers that our eloquent candidate for Lieutenant Governor, has, for some time past been addressing the people of the West on the present aspect of political affairs, and spreading dismay in the ranks of his opponents. On Monday evening, pursuant to previous notice, the Court House was filled with citizens of both political parties, some of whom would not have consented to listen to such political heresy, had it not been whispered around that the Hon. *Moses M. Strong* was prepared to propound some difficult questions to the speaker, and then sweep his arguments and principles out of existence. Now, Mr. Strong, like his illustrious predecessors—in the opinion of this community,

> "Is in logic a great critic,
> Profoundly versed in analytic.
> He could distinguish and divide
> A hair 'twixt south and south-west side."

After Col. HUGHES had thoroughly sifted the single, solitary resolution passed by the Convention of the 10th September, and had clearly shown that it was all chaff—capable only of blinding the eyes of those who endeavored to grasp it—and had taken up and discussed *seriatim* the resolutions of the Whig Convention, showing most conclusively that action, in accordance with their spirit and tenor, was the true policy of the State—neither concealing or evading any issue therein presented—Mr. STRONG rose and demanded of Col HUGHES a direct, positive and unequivocal answer to this question—"Are you in favor of, and will you vote for, at the coming election, "BANK," or "NO BANK?" Col. Hughes, without a moment of hesitation, replied—"Were the votes of all present to be lost by the answer, I would not equivocate—I shall vote "BANK!" Mr. Strong then with the consent of the previous speaker, after making due apology for accepting an *unexpected* call, &c., proceeded in reply, to review the Whig resolutions—calling most of them democratic in their principles, until he came to the Bank question.

Here was a bug-bear with which to frighten the hard-money men of the mines. A Bank with a fictitious capital was conjured up and presented to the imaginations of his hearers, as a specimen of a sound specie-paying currency, and the old Bank of Mineral Point was, though dead, a living witness in the memory of many now present, of what might be expected from the ascendency of Whig principles. He then went on to purify the Democratic party from any taint of corruption, and demonstrated most clearly its position on this question—showing beyond a cavil, from the journal of the Convention which formed the rejected constitution—a copy of which he had *unexpectedly* put into his pocket on coming out to the meeting—that Don A. J. Upham, the democratic candidate for Governor, was, and pledging his honor and veracity that he now is, affected with deadly hostility to Banking Institutions of any kind—and furthermore that he is in favor of punishing by *fine* and *imprisonment* any person daring to circulate anything less than a Twenty dollar note. This was the issue, and the only issue, at the coming election; and with a few flings at the Internal Improvement policy of the Whigs, threatening the people with *destruction* by railroads and internal facilities for transporting lead and produce—constituted the bulk of his speech, which was longer and more labored than that he designed to answer. He wound up by pledging himself, the democratic party, and its present candidates anew, to eternal opposition to Bank—urging it upon the *miners* especially not to trust the question with the majority of the people, for he knew they would vote "Bank;" *to elect officers who would refuse to carry out that will*, as expressed through the ballot-box, should that expression be as was anticipated.

Col. Hughes made a short rejoinder, showing the people that it was the democratic party and not the Whigs that had established the wild cat and red-dog money referred to by Mr. Strong, and giving them an item of information not generally known, to wit: that Mr. MOSES M. STRONG himself, was one of the Commissioners to organize the famous Mineral Point Bank with $1500 capital! "Ah," said the Col., "I fear my friend is somewhat like the guide-board at the forks of a road—it *points* the way, but does not go it"—It may be imagined that arguments were forgotten for an instant, and the house was in a perfect roar. The tide was turned, and our future Lieut. Governor, after referring the people to the fact that the democratic candidates dare not make any pledges *at all* on this question, though they had been frequently called upon to show their hand, left the stand amid the hearty cheers of his listeners.

This meeting is important as showing the means resorted to to defeat the Whig ticket. In the East, the question of Banks is kept out of sight—while in the West it is made the only test of democracy. MINER.

FAILURE OF THE COLUMBUS INS. CO.—The editor of the Cleveland *Herald*, writing from Columbus under date of Oct. 21, gives the following particulars of the recent crash of the Columbus Insurance Co:

The failure of the Columbus Insurance Company has produced considerable excitement here.—The failure is a very bad one, and carries with it several men of business and property in this city. Up to the great St. Louis fire the company was very successful, and the stock was sought for often above par. It had principally got into hands of men of wealth, and the heavy blow the Company received in that dreadful conflagration has never been recovered from.

To meet the losses and sustain the credit of the favorite institution, wealthy stockholders raised means on their individual responsibility to a very large amount, with the hope and expectation that the prosperous business of the Company then widely extended, would in a few years make up all deficiencies. But the tide continued to run adversely and in nearly every severe fire, whether accidental or the work of incendiaries, the Columbus Insurance Company were sufferers. The crash has come at last, and among the severe losers we hear Mr. Hubbard, Mr. Moody, Mr. Miner, Mr. Graham, the estate of Mr Buttles, Mr. Whitehill, of Columbus, and Mr. Drake, of Xenia, named.

The failure is stated at *half a million or over.*

NO. II.

Messrs. Editors:—

If I should state to your readers that I am a Democrat, and that I withold my support to the party only in consequence of the dishonesty exhibited in their management of public affairs, however true that statement might be, I have no hopes that those who are willingly blinded by their party prejudices, or who have a supposed interest in sustaining party friends, will be reached by any statement I can make—but I believe there are many who are honest men, and who will candidly investigate the subject. To such do I address myself.

I charge Gov. Dewey, as the officer holding in his hand the key of the Improvement fund, and through him, his advisers and co-adjutators generally, with being responsible for the embarrassment that now exists in obtaining money from the legitimate source for carrying on the work, and for the damage caused thereby from this unnecessary delay. This embarrassment and delay has been brought about by their blunders and tinkering, and by their determination to pay themselves for party services at the public expense.

The first act of Gov. Dewey towards making available the lands granted by Congress for making this Improvement, was to select the odd-numbered sections indiscriminately along the whole route where the lands had been surveyed, and in doing so, he took a large quantity of swamp lands, which will for a long time remain unsaleable. Had he discriminated and selected only such lands as were valuable for use—as he had, under the act making the grant an unqualified right to do, he might have obtained the whole complement of such lands as would have sold without delay; and the Improvement, under proper management, might have been completed in less than 3 years from the time it was commenced. But instead of this, he has brought to the improvement fund a large quantity of unsaleable marsh lands, which, under subsequent laws would have become the property of the State, upon the principle that Congress considered they were not worth keeping.

With such lands he has burthened the Improvement fund, and he is now caviling about the even numbered sections, many of these equally swampy, embraced in this reserve, which he cannot select until Congress passes an act authorizing him to do so, inasmuch as those are the alternate ones that are specifically reserved; he having made them so by taking those that bore the odd-numbers.

Yours truly, TRUTH.

CORRESPONDENCE.

MILWAUKEE, October 22, 1851.

REV. A. S. GARDINER:

Dear Sir:—Knowing that you have paid considerable attention to the study of Elocution; and, believing that the importance of its pursuit is not sufficiently appreciated by the citizens generally, and by the young men of our city in particular, we take pleasure in requesting you to deliver a public lecture on the subject at such time and place as may suit your convenience.

A compliance with this request will not only be gratifying to ourselves, but will, as we believe, be of practical utility to all who may avail themselves of the opportunity of hearing the lecture.

Requesting your early attention to this, we remain, Yours respectfully,

ARTHUR McARTHUR,
GEORGE E. H. DAY,
SILAS CHAPMAN,
ARCHIBALD WILSON,
E. C. ARNOLD,
A. W. KELLOGG,
WM. P. LYNDE,
E. D. BROWNE,
JNO. G. TOWNSEND,
GEO. F. AUSTIN,
BENJ. B. RICHARDS,
H. A. NICHOLS,
J. McMULLEN.

MILWAUKEE, October 23, 1851.

GENTLEMEN:

Your letter, inviting me to deliver a "public lecture on the subject of Elocution," I have just received, and, without delay, I proceed to answer it. I have, as you state, paid considerable attention to the study of this art; and I may add that the knowledge which I have thus acquired I am by no means unwilling to impart, so far as I can, to those who would share it. Still, in accepting your invitation, I feel that I should awaken expectations only to disappoint them, were I to claim the power of giving a complete illustration of the rules which I profess to understand. The voluntary adaptation of the voice to the true expression of given sentiments and emotions is, you are well aware, a very different thing from the arrangement of language according to grammatical rules.

Throwing myself, however, upon your indulgence, I cheerfully accept your invitation.

I find that the most convenient time and place for delivering the lecture will be at the Free Congregational Church, on Thursday evening, 30th instant, at 7 o'clock.

Respectfully yours,
A. S. GARDINER.

To ARTHUR MCARTHUR, GEORGE E. H. DAY, SILAS CHAPMAN, ARCHIBALD WILSON and others.

How it strikes others.

The Janesville *Gazette*, copies the letter addressed to Mr. Upham by Mr. Edgerton, asking an expression of his sentiments as to banks, land limitation, &c, and comments upon the candidates silence as follows:

We ask the candid of all parties if this is the man to become the governor of this State? Can a candidate for the first office, thus withold his views upon the most prominent issue before the people, with impunity, after having been thus respectfully solicited to define his position? Would it be safe to entrust the best interests of the State in the hands of a man who *dare* not make his views public? His opponent, L. J. Farwell, occupies no such position. On all the questions touching state policy, his views are well known, or if they are unknown to any one, it is not because he has attempted to disguise them, or withhold them from the public.

If Mr. Upham's public acts heretofore, had given him the least claim to the office of governor, this last act of refusing to inform even his own party friends of his position, ought to cancel all former claims. But he never had any such claims. His whole public career has shown him to be unfit for any executive office. He lacks the necessary qualifications both as a man and a politician. No greater calamity could be-fall our state than his election, unfit as he is even if disposed to do his best, and unpledged as he is on all the vital questions at issue.

Markets—Gen. Foote.

New Orleans, Oct. 21.

The first of the new crop of sugar was sold this morning at a price not made public. There has been no sales of flour except light weight, at $3,50 to 3,70 for superfine, and 4,20 for extra. No sales Coffee. Holders ask 8½c.

The receipts of Cotton amounted to nearly 10,000 bales. No change in price. 100 bags Rio Coffee at 8½. Corn 40 to 43 and 45c. St Louis oats 30a35c. New Sugar sold yesterday at 5¼.

Gen. Foote passed through the city to-day, on his way to address his constituents in the Southern counties. The Vicksburgh papers say he has resigned his seat in the U. S. Senate, to take effect on the 8th day of January next.

Shame on it!

See what the Oshkosh *Democrat*, regular democratic, says, in comparing the two Madison platforms:

"In one respect (the Whig Convention) puts to shame the course of the democratic convention—it becomes out with a bold proclamation of its position and principles. Never within our recollection has our party truckled so low, and showed so much imbecility, such a desire to pander to popular prejudices, and made itself so exclusively and emphatically a party of *men* devoid of *principles*, as at its last state convention."

STATE SUPERINTENDENT.—We understand that Doctor Ladd and his friends are very much displeased at our remarks in regard to his qualifications for State Superintendent. This we expected of course, but we cannot for our life, see why we should be censured for saying in print, no more—nay, not half as much as is said daily by his political friends both in public and private. We have told but a small portion of what we have heard said by members of his own political party; and if the one half be true he certainly is very far from being a suitable person for the important office of State Superintendent of Public Instructions.—Mineral Point *Tribune.*

City Matters.

NEW FOUNDRY.—As will be seen by their advertisement, Messrs. DECKER & SEVILLE have added to their well known establishment in the Second Ward for the manufacture of Millstones, an extensive Foundry. They have been running it now for some weeks, in the making of several approved patterns of cooking, parlor, and office stoves, and of parlor coal grates. Their steam engine castings were made at the Menomonee foundry, and finished and put together by one of their own mechanics, and the engine does its work smoothly and efficiently. The iron used in making their stoves comes principally from Hanging Rock on the Ohio, and is a very superior article for the purpose.

They are now making the following patterns of cooking stoves, viz, the "Economist," "Triumph" and "Improved Premium." The former is the stove which took the 1st premium at the recent State Fair at Janesville, and is just what its name indicates. It must become a great favorite with our Wisconsin housewives.

The stoves, and other castings made by Messrs. D. & S., are finished in as neat and handsome a manner as the best eastern work, and we trust that their enterprise will be rewarded with abundant patronage. The concern now employs some 25 hands.

Mr. SEVILLE, the managing partner of the concern, is an industrious, active, obliging citizen, who has, by steady perseverance, built up a large business in the making and sale of millstones which have a wide reputation, and we hope he will find that he has made a "good thing of it" by undertaking the manufacture of stoves.

Theatre.

A company of Actors, who have been performing with success in Michigan and other States East of us, have taken Gardiner's Hall for a short season, and make their appearance to-night in two very popular plays, "the Lady of Lyons," and "the Loan of a Lover." The Marshall *Statesman*, where they have recently performed for a few evenings, thus speaks of them:

THE NATIONAL THEATRE.—Commenced in our village at the Mechanic's Hall, on Monday evening with Coleman's celebrated tragedy of the Iron Chest—Mr. Adams appearing as Lord Mortimer. To-night will be played the chaste and elegant play from Bulwer of the Lady of Lyons. To those of our readers who are lovers of the Drama, we say go and hear them: so far we discover nothing that would alarm even the most fastidious. The parts are well learned and played, with much good taste and judgment. We notice that our exchanges where this company have played, speak of them in every flattering terms.

With M'lle Louise, the audience were highly pleased—her dancing was in very good taste, and her playing admirable. She is destined to be a great favorite with our theatre loving citizens during her stay in this village. Mr. Bridges is also a favorite, and we think will be greeted with much good feeling whenever he makes his appearance.

EXTRA FINE FLOUR.—We have again to make our acknowledgements for a sample of choice Family Flour sent us by JACKMAN & SMITH, of the Janesville Mills. It is the identical Flour which took the first Premium at the Wisconsin State Fair, and in color and quality may safely challenge comparison with the best Genesee and Ohio. It is made from this year's winter wheat, and speaks not only for the excellence of the grain, but for the skill of the Millers. Our friends, BROWN & LARKIN, are Agents for the sale of this Flour.

REMOVAL.—Messrs. POWER & SCHLEY have removed their office to the 3d story of KIRBY's New Building, corner of East Water and Wisconsin Streets. They are prepared to transact a large business in loaning and investing money, buying and selling lands, renting houses, &c., and will do what they undertake, faithfully and well. Their large Map of the State, in itself an invaluable guide to purchasers, may be seen in their new office.

KIRBY, too, is moving into his new quarters at the corner, and will "open rich" in a day or two.

PARODI COMING!—We have the pleasure of announcing to our readers that PARODI, the great rival of JENNY LIND, is on her way West, and will give a grand Concert in this city, assisted by MAURICE STRAKOSCH, the great Pianist, and other eminent Artists, on Monday week, the 3d of November. She will sing "Casta Diva" from Norma, "Ah, non giunge" from the Sonnambula, and, with Mademoiselle PATTI, the celebrated duetts from Norma and Semiramide.

NEW BANKING HOUSE.—We understand that an association of capitalists from the east are about to establish a new Banking House in this city, in connection with the Macomb County Bank, the charter of which they have just purchased. They have leased the large store, in Dickerman's Block, now occupied by Mr. MIDDLEKAUFF, and the active manager, Mr. BRUNSON, expects to commence business in the course of a week. The cash capital paid in is $100,000.

OIL PAINTINGS.—The balance of the stock of Oil Paintings remaining unsold, will be disposed of this evening by Messrs. SEA & SHERMAN at Auction at their rooms, No. 400 East Water St.—The beautiful French paintings upon velvet will then be offered. They also offer a lot of Gold and Silver Watches.

REVIEW OF THE FIRE DEPARTMENT.—The semi annual parade and Inspection of our Fire Department takes place this afternoon, and will doubtless make a handsome display.

FURNITURE SALE.—WALL sells some very choice Mahogany furniture at Auction this morning, and we give good advice when we tell our readers to go and bid, and make their fortunes at once.

THE subscribers, thankful for past favors, beg leave to announce that they have recently added the FOUNDRY business to their former occupation of Mill Stone manufacturing, and are now prepared to supply the public with articles in either branch, on terms that will defy competition.

In offering our Stoves to the community, we do so with the full assurance that we can supply better articles than can be purchased at any other place, being entirely new patterns, manufactured with care and from the very best materials. The following list of patterns is offered with the confidence that they will give satisfaction in every particular, viz:

THE ECONOMIST
Double Oven Cooking Stove,
(*Which received the First Premium at the State Fair, lately held at Janesville,*)

Possesses great advantages over every other stove, for plain flues and direct application of heat, being so arranged that one or both ovens can be used at pleasure. It will cook in half the time of any other stove now in use, and with half the fuel, not consuming over four cords of wood in one year.

The TRIUMPH, single oven, takes in long wood, is an excellent stove—one that has been well tested, and given general satisfaction.

The PREMIUM is different in its construction from any other made, in the arrangement of the fire back—acknowledged to be a great improvement.

The JUNO PARLOR is adapted to either wood or coal, being decidedly the neatest arrangement ever offered to the public, having all the conveniences of the store combined with the beauties of the open grate. It is beautifully ornamental, highly finished, and perfect in every respect—the entire front above and below the grate being opened or closed with three doors, and so arranged that when open they are completely out of sight. It is equally adapted to offices as well as parlors.

The RADIATOR is the best coal stove ever got up as a retainer of heat.

Persons purchasing their stoves of us, in the event of any of the plates getting broke, can at all times be supplied with extra ones, thus superceding the necessity of throwing away stoves, which many are daily compelled to do in buying Eastern ware.

Those who are in want of an articles in our line, will find it to their advantage to give us a call, before purchasing elsewhere, as we are confident that we can give satisfaction in all cases. City references given, where our stoves can be seen in operation. Stoves delivered and set up in any part of the city, free of charge. All orders promptly attended to.

JOHN DWIGHT & CO'S
SODA SALERATUS

MAY be found at the Sugar Warehouse of Goodrich & Hunter, No. 42 East water-st.

The attention of the public is called to this article as being superior to Pearlash Saleratus in its effect—giving cookery a more delicate appearance and flavor; and also as more wholesome—Soda being more congenial to the human system than Potash. It is more economical than Pearlash Saleratus—a less quantity being required to produce the same effect. The article is put up in pound papers with full directions for use.

Also may be found, John Dwight & Co's

Washing & Cleansing Powders,

which will be found, on trial, a very superior article, saving much labor of washing Clothes, &c. It will soften hard water. To Engineers and Machinists it is invaluable for removing grease from Machinery and other Iron works, leaving the iron perfectly dry, and not liable to rust.

Directions for use are printed on each package.

Editors Sentinel:

The Whigs in the Janesville District nominated Wm. A. Lawrence for Assembly, and J. W. Hemenway for County Treasurer. Both of Janesville.

"The Tariff of Forty-Six."

The "Tariff of Forty-six" found the Country in a prosperous condition. The "Black Tariff of Forty Two" had set our Spindles and Looms going with our Forges and Rolling Mills into brisk operation. There was remunerative occupation for Machinists, Mechanics, Operatives and Laborers; and there was a quick market and good prices for all our Agricultural Products.

Like the Patient who was well, but wanted to be better, the People changed a Protective Tariff for Free Trade. This gave them Merchandize, Rail Road Iron, &c., for a while cheaper than we could produce them at home. Commerce, no longer "fettered" with "restrictions" or "oppressed" by taxation, soon run into parallel activity. We seized with avidity upon the "blessings of Free Trade," purchasing, by hundreds of millions, articles which might have been produced at home.

The past four years, therefore, have been the Seed time of Free Trade, and now comes the Harvest, for those who sow must reap. The Steamers, for some months, have been taking specie to Europe at the rate of more than half a million a week, to pay for Rail Road Iron which might have been taken out of our own beds and rolled through our own Mills. These Mills, in the mean time, have been compelled to put out their fires and discharge their men. The various Manufacturing Establishments throughout the Eastern and Middle States have either been closed or kept open at a loss.

So far California has enabled us to stand these large shipments of Specie. But the demand begins to exceed the supply, and if this disproportion between the amount of Gold received and the amount shipped, should continue, we shall soon enjoy the legitimate fruits of that species of Free Trade which impoverishes our own People to enrich the subjects of Queen Victoria.—*Albany Evening Journal.*

Lake Superior Items.

The London, arrived this morning from the Soo. We gather the following items from the News.

At Marquette works, several new buildings have been put up. Four more fires are about being put up.

The Jackson Iron Co. are making large shipments of blooms.

The dam at Carp River is completed, and saw mills and blooming furnaces going up.

A postoffice established at Copper Harbor and new buildings going up.

Eagle Harbor increasing in population rapidly. Eighteen new buildings finished.

Eagle River enjoys same prosperity. Four new stores erected and a large Hotel going to completion.

At the mouth of the Ontanogon, very extensive improvements. River street has been lined with two story residences. A steamboat building to ply on the river.

A large number of German Emigrants went up Lake Superior, last week, to settle.

The Ontanogon mail of 25th ult., was lost from the Monticello. A box of $1800 worth of Surveyor's instruments were thrown overboard during the gale, belonging to Judge Burt.

Eighty tons of Copper from the Cliff mines, and 18 tons from Minesota, and 8 tons from Forest, arrived at Soo, last week.

The Ridge mine has 400 tons of first quality of stamp at the surface.

The Ontanogon Light House, is completed, by Mr. Chittenden.

Only a part of the hull of Monticello remains.

The Peninsula from the Soo, has 50 tons of copper.—*Detroit Tribune.*

"The Leading Staple."—Senator Douglas, of Illinois, in his recent speech at the Agricultural Fair, (N. Y.,) calls cotton "the leading staple of the United States." Let us look a little into the comparative results of Agriculture. We take the facts from the Census Statistics of 1840—those of 1850 not being yet published.

1. As to quantity and value—

Articles.	*Pounds.*	*Value.*
Indian Corn,	22,651,92,500	$125,842,000
Wheat,	5,089,396,200	67,858,961
Hay	20,596,216,000	102,48,000
Cotton	790,479,275	63,239,342

The prices above are stated for each article, according to the prevailing rates, in the principal markets of the United States, at the time these statistics were taken. It appears that the *weight* of the cotton crop is less than a *twenty-fifth* part of the corn crop, and the *value* about *one-half*.—In neither of these respects, then, is cotton the "leading staple" of the country, nor anything like it.

To illustrate this matter further, let us compare the value of the hay crop in the State of New York, where Senator Douglass was delivering himself of cotton ideas, with that of the cotton crop of Mississippi, the largest product of that article:

New York—Hay,	$31,000,000
Mississippi—Cotton,	23,120,000

So that, even hay in New York counts higher than cotton in Mississippi, where it is the largest product.—*Buffalo Express.*

Treaty Concluded.—Col. Cooper and Major Chilton, U. S. A. have arrived in this city from the Treaty Ground at Horse creek, 35 miles east of Fort Laramie. They left the Treaty Ground on the 24th. At that time, the Treaty with the several tribes of Indians had been concluded, and the wagon train, containing the presents, having arrived, they were distributed to the Indians by Col. Mitchell. The object of the Commission having been consummated, in a manner satisfactory to the various parties, Col. Mitchell, and the gentlemen in his company were to leave for the States on the evening of the 24th.

Some little excitement was produced by the arrival of an express from the Trading Posts on the Upper Missouri, advising Col. Mitchell and the Indian agents of the prevalence of cholera among the Indians of that region. We have already given an account of the ravages of this disease, and of the excitement which it occasioned, at the several trading posts, as related in letters to a gentleman of this city interested in the Fur Trade.

A delegation from the several tribes of Indians participating in this treaty, will visit the President at Washington, and it is understood will accompany the Commission from St. Louis.—*Mo. Rep. 17.*

☞ The Walworth Co. Fair came off the 14 & 15, and was well attended. The show of stock and articles of handy work exceeded our expectations. The Ladies took a lively interest in the subject and brought in numerous specimens of their skill, highly creditable to their taste. The stock was considerable in quantity and excellent in quality and the interest manifested by the immense crowd of people of which the ladies formed no inconsiderable proportion, shows that our people are waking up to the importance of the subject of agriculture, and that at no distant day Wisconsin will hold a proud position for agricultural skill. We have not time this week to give even a synopsis of the exhibition.

Next week we shall give a more extended notice and shall probably be able to give the award of premiums.—*Elk Horn Star.*

The Jewels of Massachusetts.—Mr. Winthrop in an address delivered on Thursday week, at an Agricultural Dinner at Northampton, which, as his speeches are apt to be, was both eloquent and eloquent, thus happily alluded to the Common Schools of that State:

"Other nations may boast of their magnificent gems and monster diamonds. Our *Kohinoor* is our Common School system. This is our '*Mountain of Light*,' not snatched, indeed, as a prize from a barbarous foe—not designed only to deck a royal brow, or to irradiate a Crystal Palace, but whose pure and penetrating ray illumines every brow, and enlivens every mind, and cheers every heart and every hearthstone in the land—and which supplies from its exhaustless mines, ornaments of grace unto the head and chains upon the neck of every son and daughter of Massachusetts."

Fire.—On Tuesday night last, a daring attempt was made by some heartless villains, to burn a portion of the village of Mineral Point. Between 12 and 1 o'clock at night, a fire was set to the back part of Wheeler's Tin Shop, adjoining the Store of C. Beeza, on the west, and Tregaskis' Auction Room on the east, directly under the New Saloon. The fire was discovered very soon after being communicated to the building, an alarm given, and a large number of our citizens on the ground. At one time, but little hope was entertained of saving the block in which the fire was set, or even any building in the vicinity of the fire; but through the untiring exertions of those present, the flames were finally subdued, without a large amount of damage.—*Mineral Pt. Tribune.*

TAKE NOTICE!

PATENT

BEDSTEAD.

THE undersigned now offer to the public a new article of Bedsteads, entitled "HINKLEY'S PATENT SUSPENSION BED BOTTOM AND FASTENING," which possesses, as they believe, a decided superiority over every other kind now in use.

The advantages of this Patent are, first, the elasticity of its spring, the simplicity and durability of its structure, and what is of far greater importance, these Bedsteads are "BUG PROOF." For these reasons, it is believed to be not only the best, but the cheapest Bedstead that can be used!

In enumerating its advantages, the proprietors only repeat the statement of competent persons in this city, and elsewhere, who have had the best opportunity of judging of its merits.

FACTS WILL ALWAYS SHOW!

and when we say that one firm in New York (Troy) manufactured and altered over [under this Patent] TWELVE THOUSAND Bedsteads within two years, and that in the eastern cities,

ONE HUNDRED THOUSAND

Have been made and altered, we tell nothing but the truth, and exemplify the advantage, luxury and economy of this Patent over all others now or heretofore in use. These Bedsteads have been adopted at the Astor House, N. York; Troy House, Troy; Mansion House, Troy; Irving House, Troy; Marvin's U. S. MILLARD, HOLTON & CO.

P. S. Any person infringing on the above Patent, will be prosecuted according to law.

A New and Valuable Improvement in Bedsteads.

We, the undersigned, citizens of Milwaukee, having examined "Hinkley's Patent Suspension Bed Bottom," now being introduced into this city by Millard & Co., pronounce it far superior in all respects to any thing of the kind that we have heretofore known either in this or any other State. Its superiority over all others, consists in the elasticity of its spring, the simplicity and durability of its structure, and what is of far greater importance, these Bedsteads are "Bug proof."

We feel, too, that for cheapness, it does not cost any more than the common wood screw, the expense of the cord and sacking bottom being saved; and for practical utility, it must in fact supersede all kinds heretofore used. We would therefore cheerfully recommend it to the citizens of Milwaukee, and the public generally.

PHILLIPS' UNITED STATES

Fire Annihilator Agency.

THE undersigned respectfully announces that he is the authorized Agent for the English Patentees for the disposal of PHILLIPS' FIRE ANNIHILATORS in the Counties of Milwaukee and Racine. His agency, based upon a certain proprietory interest in the Patent, will be conducted in connection with a company of operation, to be known as

"Phillips' United States Fire Annihilator Company."

Of which Hon. ELISHA WHITTLESEY, 1st Comptroller of the United States Treasury at Washington, is the President. Hon. JOHN M. CLAYTON, of Delaware, is Counsellor for the Company, and P. T. BARNUM, Esq., General Manager and Secretary.

The prices of Machines, and of Charges, are as follows:

SIZE OF MACHINE.	PRICE, INCLUDING ONE CHARGE.	PRICE OF EACH SPARE CHARGE.
No. 1	$10	$1 25
No. 2	20	1 75
No. 3	25	2 50
No. 4	30	3 00
No. 5	35	3 50

☞ Freight from New York added to the above prices.

The machines can be made to order of any size, at proportionate prices.

No. 1, (the smallest size,) is valuable for extinguishing fires in chimnies and small apartments.

No. 2 is used with effect in larger buildings, and at the outset of a fire, and has the advantage of being the most portable of the sizes deemed available for houses.

Nos. 3, 4 and 5, are the Hand Machines of greater power. No. 3 can be carried by a lad. Nos. 4 and 5 can only be handled, to advantage, by a man, and are preferable for large establishments, as they may be effectually used for street fires.

In addition to the Hand Machines, there are Street or District Annihilators, mounted upon wheels, and intended to be drawn by firemen in the usual manner. These machines are possessed of continuous power, and will emit, through a hose, a stream of vapor upon a burning building for any desirable length of time.

The Portable Machines are so simple in construction that they are not liable to get out of order, and their application is so easy that any person may effectually use them. The chemical charges may be preserved any length of time.—These Machines furnish an infallible protection against the destructive consequences of fire, as they are always ready for constant use, and contain within themselves the means of extinguishing accidental fires, as soon as discovered.

The Fire Annihilator is made to evolve a humid vapor, and to emit it with great expansive force, so as to penetrate into, to search out, and extinguish the fire. But, while the vapor emitted is destructive to fire, it is innoxious to life, and even tends to purify an atmosphere charged with smoke; nor does it injure the furniture or goods which may have escaped the action of the fire. And in this capacity the machines constitute the best fire escape, and the means of rescuing property from the flames the world has ever known; even the smallest machine, inadequate to the extinction of a large fire, will enable the bearer to enter the flames and rescue life and property with perfect impunity.

The merits and practical utility of the Patent Fire Annihilator have been thoroughly tested, and are acknowledged by the most eminently scientific men, and the machines have been, by command, supplied to the Royal Palaces of Queen Victoria. The Crystal Palace of the World's Fair, the mansions of the Nobility, the principal Manufactories of Great Britain and France, Theatres, Churches, and other public edifices, as well as steamboats, shipping, &c., now have them in constant use.

One of the great advantages of this invention, will be the immediate reduction it must occasion in the Rates of Insurance; and the underwriters will at once perceive that their profits must be greatly enhanced by the extraordinary diminution of destruction effected at every conflagration.

On the 13th instant a Register will be opened at the office of the Company in Milwaukee, (due notice through the Press will be given of its location,) for the reception of subscriptions for machines, and every person will be served in regular rotation, according to priority of application.

[illegible]

The subscribers having, in connection with other members of the company, made the strictest investigation and experiments, and being perfectly convinced that this wonderful invention will accomplish all that is urged in its behalf, and thus become an indispensable article for every house, manufactory, ship, or other place where fire is used or may be introduced, have accepted the above agency and are prepared to fulfill their duties to the public to the best of their ability.

Stoves may be added or changed, outbuildings erected, if fifty feet from dwelling, and such additions and repairs made as do not increase the hazard, without notifying the company. The Company will be responsible for the correctness of surveys taken by their Agents. Insurance may take effect on the day the application is made. The Company pays in case of fire, the full amount of damage, not exceeding the amount insured, and all matters of difference may be settled by arbitration in the county where the loss occurs.

The rates charged by this company, though low, are based upon the actual results of insuring for the past twenty years, and are found to be sufficient, with prudent means, to pay all losses and expenses without ever resorting to a premium note; thus the rates on exposed dwellings and farm property, are a premium not of one per cent, and a cash premium of fifty cents on each $100 for five years.

In publishing our safe, cheap, and popular plan of Insurance, we deem it a duty to ourselves and the public to state a few existing facts with the Washington and Montgomery:—

The Washington County Mutual commenced in 1836, by collecting thirty cents on $100; in 1848 they first discovered that this was insufficient to pay losses, and raised to 33 cents and now are collecting 50 cents on each $100; the result of which is, by their report, Jan. 1, 1850, $3000 in the treasury, and six million at risk, on which they will probably lose two hundred thousand, making their actual debt 191 thousand.

The Montgomery County Mutual is another example of bad management. They have been in operation a little longer than the Washington, and their report shows what the Washington is fast coming to. They reported to the Comptroller, Jan. 1, 1850, that their losses and cash expenses had exceeded their cash receipts twenty-nine thousand dollars, and fifteen thousand dollars claims unsettled, making debts and claims forty-four thousand dollars, and some thirty millions at risk, on which they will probably lose ninety thousand dollars more, making their actual debt one hundred and thirty-four thousand dollars.

The cash premiums now collected by these two companies, on what they insure in future will only pay losses on the same, consequently those insuring with them now not only pay for their insurance, but assume a portion of these enormous debts, which must be raised by tax. These companies are unpopular in New York, and are compelled to wander in the Valley of the Mississippi where they are not so well known for business. Arch Bishop and Lester Wilcox may publish, as heretofore, their firm belief that no tax will ever be necessary, but the figures are the things to judge from.

Since the above reports, the Montgomery have [illegible] a tax on their premium notes.

Now we would ask the public candidly, which of these three companies it is to their interest to insure in; the Washington, and assume a debt of $191,000, the Montgomery, and assume a debt of $134,000, or of the Troy, with an increasing cash fund sufficient to pay all losses and expenses without ever resorting to a tax?

THE BEST FEMALE MEDICINE KNOWN!

The peculiar maladies to which females are subject commonly produce great bodily exhaustion, accompanied by a depressed and often gloomy state of mind. As the system declines in strength there is a loss of nervous power, and this very naturally impairs the energy of the mind and disturbs the equanimity of the temper. Every candid woman who has suffered from female complaints will admit this to be the mournful truth. Now, to obtain relief, it is only necessary to stop the tendency to depletion and debility. This is done by renewing that fountain of health and strength, the BLOOD, and no medicine accomplishes this desirable result so speedily and completely as "Dr. Guysott's Improved Extract of Yellow Dock and Sarsaparilla."

Ladies of pale complexion and consumptive habits, and such as are debilitated by those obstructions which females are liable to, are restored, by the use of a bottle or two, to health and to vigor.

☞ Dr. Guysott's Improved Extract of Yellow dock and Sarsaparilla is a sure remedy for Hereditary taint.

Females, Read the Following.

NEWARK, N. J., Jan. 25.

Mr. Bennett—We take pleasure in stating that your Yellow Dock Sarsaparilla gives great satisfaction in every case. A very respectable gentleman informed me that his daughter was troubled with difficult menstruation and other diseases peculiar to her sex. She had not had her regular menstrual discharge for a long time; but by the use of Dr. Guysott's Yellow Dock and Sarsaparilla was radically cured. She used Townsend's and others without receiving the slightest benefit. He had one daughter die from the same cause.

J. B. TITER & Co.

BINGHAMPTON, Oswego Co., May, 1848.

S. F. Bennett—Dear Sir: I purchased, a short time ago, a bottle of your Yellow Dock and Sarsaparilla for my wife, which she has used for her complaint, Erysipelas and weakness, Falling of the Womb, etc., and it has already helped her very much. Of the Erysipelas it has effected nearly a cure. I have just purchased a second bottle, and judging from the effect of the former feel confident that it will effect a perfect cure.

Yours, very respectfully, N. COBURN.

Cure of an aggravated case of Erysipelas.

The cures performed by Dr. Guysott's Extract of Yellow Dock and Sarsaparilla are lasting. The patient's general health continues to improve after disease is removed. Cures are not chronicled until time has fully tested that there can be no relapse or return of the disease.

NORWAY, Herkimer Co., Feb. 1850.

S. F. Bennett & Co.—Gents: It is with great pleasure that I write you about the very happy effect of your Yellow Dock and Sarsaparilla upon my son, who has long been suffering under that dreadful, loathsome disease, Erysipelas, with which he was attacked in 1848, and was for several months attended by some of our best physicians, who tried their skill perseveringly for five months without any beneficial effects whatever. He became reduced to a perfect skeleton. He had ulcers from his hip down to his knee, which were continually discharging offensive matter. Medical and surgical skill was baffled. Physicians said that his case was hopeless—there could be nothing done to arrest those terrible gangrening ulcers. My neighbors and myself thought his dissolution near at hand. One of my neighbors, who had cured a child of scrofula with your invaluable medicine, wished me to make a trial of it, and more from the restless desire to do something while life lasted, than from any hope of getting relief, I procured three bottles of your "Yellow Dock and Sarsaparilla," and commenced using it, and to my astonishment, he commenced to improve before he had used the third bottle, and before he had used half a dozen bottles, he could walk out. He used in all twelve bottles during the year '49, and by October last he was perfectly restored; every vestige of the disease except the scars was removed, and he remains in perfect health up to the present time. His recovery, under the blessings of God, is entirely owing to the use of your Yellow Dock and Sarsaparilla, and I assure you that I feel myself under great obligations to you, and it is with great joy that I inform you of what your Sarsaparilla has done for my son.

Respectfully, JAMES RUSSELL.

TO THE PUBLIC.

THE introduction of Dr. John Bull's unequalled Sarsaparilla, has formed an era in the medical world. Its rise, progress, and the many wonderful cures it has effected, since it was introduced to the public, have been a subject of great astonishment, and even commanded the admiration of the American people. When the history of this truly wonderful medicine is known, together with the extraordinary exertions made by Dr. Bull, to make it the most valuable compound of Sarsaparilla known to the world, its rapid and unprecedented rise and progress will no longer be a theme of astonishment.

Twenty-six years since, Dr. Bull, then a boy, came to Louisville, and was employed for a number of years in studying the business of an Apothecary, with Messrs. Byers & Butler, Dr. T. E. Wilson, and the talented L. George, Jr. After leaving the service of Dr. Wilson, Dr. Bull was employed by Dr. F. Scorch, an old and celebrated German physician of this city, and who was for many years Surgeon in the Grand Army of Napoleon. Dr. Scorch, during his life, made a fluid Extract of Sarsaparilla for the especial use of the physicians of this city, and which was considered at that time by far the most superior article made. Dr. Bull was employed by Dr. Scorch, in compounding this celebrated Sarsaparilla, and he then conceived the idea, and finally fully determined seventeen years since to introduce at some future period, for the consideration of the afflicted, a preparation of Sarsaparilla.

Since that time, his mind has been constantly employed in studying the ingredients, and experimenting to find a complete, safe, and valuable compound of Sarsaparilla such a one as would be acknowledged by physicians as undoubted in its efficacy, and hailed by the afflicted with demonstrations of joy. By close and unremitting study, he at last succeeded in gaining the desired end. His Extract having been several years before the public, and its merits completely tested, he confidently appeals to the thousand certificates of its wonderful cures and hence for its great superiority over all other similar compounds. It is therefore a matter of no surprise, that the question is frequently asked,—"Why don't Dr. Bull's Sarsaparilla continue to advance in the favor and confidence of the public, when all other similar preparations, which have preceded his, have been cast aside as unworthy of the slightest notice?" Tho' it is not required, yet this question is easily answered. Dr. Bull has not worked alone for pecuniary preferment; gain has not been his sole object; he has had a higher and a nobler aim constantly in view—that of relieving the sufferings of his fellow-creatures. Unlike those who compound a good article for a short time, that they may gain a reputation, and having attained the object of their wish, reduce their article, by leaving out its most valuable ingredients, to a worthless mixture, in order to accumulate wealth. Dr. Bull has continued to use the costly ingredients, which his long study and experience enabled him to discover, and which have been of such invaluable service to suffering humanity. He seeks to gain an unspotted reputation not only for himself, but also for his renowned Sarsaparilla; and it is a fact worthy to be recorded, that every gallon of the Sarsaparilla sold by Dr. Bull is made with his own hands, and under his immediate Superintendence. For several years past, he has been daily experimenting in administering his mixtures without charge, to patients pronounced incurable; and to his eternal fame be it recorded, his efforts have been crowned with the most wonderful success. His Sarsaparilla has now gained such a wide spread reputation, and been established upon such a solid basis, that he is firmly satisfied of its undoubted merits, and confidently challenges the combined Medical skill of Europe and America to produce out of Sarsaparilla, a superior preparation to his Fluid Extract.

Dr. Bull would here like to introduce a few of the many testimonials of the wonderful effect of his Sarsaparilla; but to publish the one quarter of the astonishing cures effected by the use of this truly great Medicine, would require a volume of five hundred pages, and the Doctor has to be satisfied by offering the opinions of a few distinguished men, believing that these opinions will be sufficient to induce all who are afflicted to give Bull's Sarsaparilla a trial.

TESTIMONIALS.

Rev. E. W. Sehon—Rev. E. Stevenson.

The following is a verbatim copy of a certificate now in the possession of the proprietor of Bull's Sarsaparilla. Rev. E. W. Sehon is widely, and generally known as an eloquent and accomplished Pastor of the M. E. Church, and Rev. E. Stevenson has been known as one of the most talented and zealous members that the Kentucky Conference could boast of for many years, and at this time is filling the high and responsible station of agent for the M. E. Book Concern.—Can the world produce better, or more satisfactory testimony in favor of any medicine?

Louisville, May 20, 1849.

We have used John Bull's Sarsaparilla, and have known it to be used with entire satisfaction; and we have no hesitation in stating that we believe it to be a safe and valuable medical compound, and calculated to produce much good, and relieve much suffering; and therefore would cheerfully and most earnestly recommend it to the afflicted.

(Signed) E. W. SEHON,
E. STEVENSON.

Testimony Like the following, renders superfluous all comments on the efficacy of Bull's Sarsaparilla.

From Doctor L. P. Yandell, Professor of Chemistry in the Louisville, Medical College.

I have looked over the list of ingredients composing John Bull's Compound Extract of Sarsaparilla, and have no hesitation in saying that they form a safe compound, and one that promises well in chronic diseases, to which it is applicable.

L. P. YANDALL, M. D.

Louisville, June 6, 1848.

Better Testimony than was ever offered in favor of any Medicine.

From Dr. James M. Moore.

Dr. John Bull—I have no hesitation in saying, that I believe your Sarsaparilla to be the best article ever manufactured for the cure of scrofula, syphilis, and many other cutaneous and glandular affections, having used it with entire success in a number of the above cases.

Louisville, Dec. 26, 1847. J. M. MOORE, M. D.

More Testimony from Dr Moore.

Mr. John Bull—I am using your Sarsaparilla in several new cases of scrofula, and with happy effect. I am now confident it is one of the most efficacious medicines that can be made for that disease.

What Dr. Pyles, Physician by appointment to the Louisville Marine Hospital, says of Bull's Sarsaparilla

Louisville, March 20, 1849

I have examined the prescription for the preparation of John Bull's Sarsaparilla, and I believe the combination to be an excellent one, and well calculated to produce an alterative impression on the system. I have used it both in public and private practice, and think it the best article of Sarsaparilla in use.

JOY TO THE BED-RIDDEN.

A VALUABLE DISCOVERY FOR THE INSTANT CURE OF PAIN.

RADWAY'S READY RELIEF,

CURES THE WORST DISEASES IN MINUTES AND HOURS, AND STOPS THE MOST CRUEL PANGS IN SECONDS.

So quick and efficient is Radway's Ready Relief in stopping pains and curing diseases, that it has frequently raised the diseased and hopeless invalid from a bed of sickness in a few hours. It has cured the worst pains of

RHEUMATISM,	In four hours,
NEURALGIA,	In twenty minutes
TIC DOLOREUX,	In ten minutes.
TOOTH-ACHE,	In three seconds.
SICK HEAD-ACHE,	In three seconds.
NERVOUS HEAD-ACHE,	In fifteen minutes.
SOUR STOMACH,	In five minutes.
HEART-BURN,	In five minutes.
BOWEL COMPLAINTS,	In thirty-five minutes
CRAMPS and SPRAINS,	In twenty-five min's.
DIARRHEA,	In one hour.
INFLAMATION of the BOWELS	In thirty minutes
LOCAL INFLAMATIONS	In ten minutes.
INFLUENZA,	In twelve hours.
HOARSENESS,	In ten hours.

Special complaints, swellings, bruises, sores, wounds, &c., it will relieve ten times quicker than any other remedy in use.

LET THOSE WHO SUFFER PAIN TRY IT!

It will prove itself in a few minutes. As soon as it is taken internally, or applied externally, its beneficial effects are seen.

IT IS BETTER THAN ALL OTHER REMEDIES.

HERE IS THE PROOF!

There is no other remedy that claims to subdue the cruel pangs of pain in seconds, minutes, or even hours. They require the patient to use dose after dose before a favorable change is promised. Not so with RADWAY'S READY RELIEF. Its effects are instantaneous; the first dose that is taken, or the first external application, commences its great work of relief from pain.

SICK HEADACHE CURED IN 20 MINUTES.

Radway's Ready Relief has cured over 90,000 cases of Sick and Nervous Headache during the past season. In the Western States where this distressing complaint is so general, Radway's Ready Relief has cured every case where it has been applied. Our agent, at Romeo, Michigan, writes: "Out of our Village of 1000 inhabitants, Radway's Ready Relief has cured 750 persons of Sick and Nervous Headache, Weakness, Fainting Spells,—curing many of the worst cases in the incredible short time of 15 minutes. It is now surpassing every kind of Medicine we have here, in arresting pain and curing diseases of Nervous, Rheumatic, and of Bilious type."

LADIES' BEDSIDE COMPANION.

Radway's Ready Relief, from its universal applicability for all Pains, Aches, and Complaints incident to this country, writes our agent at Rockford, Ill., is looked upon as a God-send. "Our ladies will not even go to bed unless they have a bottle of Ready Relief within their reach; and our men will not venture out of their dwellings without a bottle of this safeguard in their pockets. It cures all Pains and Aches; Headache, Faceache, Toothache, Backache, Earache, Stomachache, Pain in the Limbs, in the Joints, the Muscles, the Legs, Feet, Arms, Shoulders—wherever and whatever the pain may be, it is instantly subdued by the use, either internally or externally, of Radway's Ready Relief.

RHEUMATISM CURED IN 20 MINUTES.

It has cured Mr. T. Freely, of 679 Water-st., who was confined to his bed for nine months, who tried every Liniment, Sarsaparilla, Life Balsam of any popularity, without one hour's relief. Radway's Ready Relief stopped all the pain in twenty minutes. Mr. Freely is now in good health. It cured a lady at Clifton, Va., so writes Ray Jones of that place, "In two hours, of Chronic Rheumatism." It cured a gentleman from Sing Sing, who had the Rheumatism for Six Years, in twenty-four hours,—so says the Hudson River Chronicle, published in that place. If there is a person in this city, now suffering with Rheumatism, Neuralgia, Nervous, Tic Doloreux, who has tried all other remedies advertised, and has not been cured, we invite you to call upon us at our office, 162 Fulton St., N. Y., and we will warrant you a speedy cure.

WEAK AND ENFEEBLED, VICTIMS OF NEURALGIA.

Radway's Ready Relief possesses a far more potent power over this class of diseases, than Morphine, Quinine, Strychnine, or any other Nervine in use. It stops the pain quicker, is free from all poisonous or debilitating properties. It is entirely vegetable, and as innocent as the snowflake. More powerful than all the Nervous Antidotes, mixtures of Sarsaparilla, &c., in use. Its first action is to blunt the acute sensibility of the nerves—to give strength, vigor and tenor to the nervous energy; to invigorate the functions and secretions of every organ in the system to a free and healthy action; to give a quickened action to the liver and tone to the stomach; to regulate the action of the bowels and secretions of the skin, and carry out of the system all morbid, poisonous and refuse humors; to give health to the body, to strengthen the nervous energy of the whole system; to change the weak, enfeebled, worn out broken down constitution to a healthy, robust, joyful, strong and hearty being. A teaspoonful of Radway's Ready Relief, taken internally three times per day, and by applying it externally when pain is present, will do all this.

MARRIED LADIES

Should make use of Radway's Ready Relief as a bath. Its invigorating and relaxing properties soften the flesh, gives strength, elasticity and suppleness to the joints and limbs. Moreover, it is a powerful regulator of the secretions and functions of every organ in the system. Married ladies, by bathing every night with Radway's Ready Relief, at a particular period, will avoid much of the pain attending them on certain occasions.

COUGHS AND COLDS.

Radway's Ready Relief will instantly stop the most troublesome Cough. It has cured hoarseness time and again, in a few hours. Taken internally, it enables the patient to expectorate freely, removes all inflammation, swelling and irritation of Bronchical organs, and by bathing externally, the neck, throat and chest, it produces a quicker action to the skin, the patient perspires freely, it removes the pain from the throat and gives strength to the lungs.

ERUPTIONS OF THE SKIN.

By adding a table spoonful of Relief to a table spoonful of Olive Oil, it will stop the most painful itching of the skin in a few minutes, and entirely cures Salt Rheum, Ring Worm, Itch, Burns, Sores, Scalds, &c.

ELEGANT TOILET REQUISITES.

To Enhance and Embellish the Charms of Beauty.

RADWAY'S MEDICATED SOAP.

Radway's Medicated Soap, so favorably known through the fashionable world for its extremely bland, purifying and soothing effects on the skin; while by its action on the pores and the minute secretary vessels it expels all impurities from the surface, allays every tendency to inflammation, and effectually dissipates all redness, tan, pimples, spots, freckles, discoloration and other cutaneous eruptions. The radiant bloom it imparts to the cheek, the softness and delicacy which it induces of the hands and arms, its capability of soothing irritation and removing cutaneous defects, render it indispensable to every toilet.

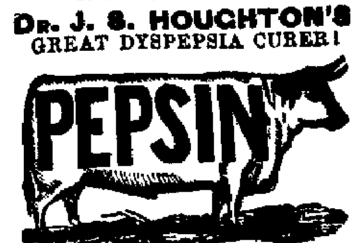
PATENT MEDICINES.

Entered according to Act of Congress, in the year 1851, by J. S. HOUGHTON, M. D., in the clerk's Office of the District Court for the Eastern District of Pennsylvania.

Another Scientific Wonder!

DR. J. S. HOUGHTON'S GREAT DYSPEPSIA CURER!



THE TRUE DIGESTIVE FLUID, OR GASTRIC JUICE

PREPARED from Rennet, or the fourth Stomach of the Ox, after directions of Baron Liebig, the great Physiological Chemist, by J. S. Houghton, M. D., Philadelphia, Pa.

This is a truly wonderful remedy for Indigestion, Dyspepsia, Jaundice, Liver Complaint, Constipation, and Debility, Curing after Nature's own method, by Nature's own Agent, the Gastric Juice.

☞ Half a teaspoonful of PEPSIN, infused in water will digest or dissolve, Five Pounds of Roast Beef in about two hours, out of the stomach.

PEPSIN is the chief element, or Great Digestive Principle of the Gastric Juice—the Solvent of the Food, the Purifying, Preserving and Stimulating Agent of the Stomach and Intestines. It is extracted from the Digestive Stomach of the Ox, thus forming an Artificial Digestive Fluid, precisely like the natural Gastric Juice in its Chemical powers, and furnishing a complete and perfect substitute for it. By the aid of this preparation the pains and evils of Indigestion and Dyspepsia are removed, just as they would be by a healthy Stomach. It is doing wonders for Dyspeptics, curing cases of Debility, Emaciation, Nervous Decline, and Dyspeptic Consumption, supposed to be on the verge of the grave. The Scientific Evidence upon which it is based, is in the highest degree Curious and Remarkable.

SCIENTIFIC EVIDENCE.

Baron Liebig in his celebrated work on Animal Chemistry, says: "An Artificial Digestive Fluid, analogous to the Gastric Juice, may be readily prepared from the mucous membrane of the stomach of the Calf, in which various articles of food, as meat and eggs, will be softened, changed, and digested, just in the same manner as they would be in the human stomach."

Dr. Pereira, in his famous treatise on "Food and Diet," published by Fowler & Wells, New York; page 35, states the same great fact, and describes the method of preparation. There are few higher authorities than Dr Pereira.

Dr. Combe, in his valuable writings on the "Physiology of Digestion," observes that "a diminution of the due quantity of the Gastric Juice is a prominent and all prevailing cause of Dyspepsia;" and he states that "a distinguished professor of medicine in London, who was severely afflicted with this complaint, finding everything else to fail, had resource to the Gastric Juice, obtained from the stomachs of living animals, which proved completely successful.

Dr. Graham, author of the famous works on "Vegetable Diet," says: "It is a remarkable fact in physiology, that the stomachs of animals, macerated in water, impart to the fluid the property of dissolving various articles of food, and of effecting a kind of artificial digestion of them in no wise different from the natural digestive process."

Professor Dunglison of the Jefferson College, Philadelphia, in his great work on Human Physiology, devotes more than fifty pages to an examination of this subject.—His experiments with Dr. Beaumont, on the Gastric Juice, obtained from the living human stomach and from animals, are well known. 'In all cases,' he says, "digestion occurred as perfectly in the artificial as in the natural digestions."

Dr. John W. Draper, Professor of Chemistry, in the Medical College of the University of New York, in his "Text Book of Chemistry," page 386, says, "It has been a question whether artificial digestion could be performed—but it is now universally admitted that it may be."

Dr. Carpenter's standard work on Physiology, which is in the library of every Physician, and is used as a Text-Book in all the Colleges, is full of evidence similar to the above, respecting the remarkable Digestive power of Pepsin, and the fact that it may be readily separated from the stomach of the calf or ox, and used for experiments in Artificial Digestion, or as a remedy for disease of the Stomach, and deficient secretion of Gastric Juice.

All modern works on Chemistry, Materia Medica, and Physiology, and all good Medical Dictionaries, describe the character and properties of PEPSIN, and state many interesting details respecting it.

The fact that an Artificial Digestive Fluid, or Gastric Juice, perfectly resembling the natural fluid, may be readily prepared, does not admit of question. The only wonder is, that it has not before been applied to the cure of Indigestion and Dyspepsia—so naturally does such a use suggest itself to the mind.

AS A DYSPEPSIA CURER,

Dr. HOUGHTON'S PEPSIN has produced the most marvellous effects, in curing cases of Debility, Emaciation, Nervous Decline, and Dyspeptic Consumption. It is impossible to give the details of cases in the limits of this advertisement; but authenticated certificates have been given of more than Two Hundred Remarkable Cures, in Philadelphia, New York, and Boston alone. These were nearly all desperate cases, and the cures were not only rapid and wonderful but permanent.

It is a great Nervous Antidote, and particularly useful for tendency to Billious disorder, Liver complaint, Fever and Ague, or badly treated Fever and Ague, and the evil effects of Quinine, Mercury, and other drugs upon the Digestive Organs, after a long sickness. Also, for excess in eating and the too free use of ardent spirits. It almost reconciles Health with Intemperance.

OLD STOMACH COMPLAINTS.

There is no form of Old Stomach Complaints which it does not seem to reach and remove at once. No matter how bad they may be, it gives Instant Relief! A single dose removes all the unpleasant symptoms; and it only needs to be repeated for a short time to make these good effects permanent. Purity of Blood and Vigor of Body follow at once. It is particularly excellent in case of Nausea, Vomiting, Cramps, Soreness of the pit of the stomach, distress after eating, low, cold state of the Blood, Heaviness, Lowness of Spirits, Despondency, Emaciation, Weakness, tendency to Insanity, Suicide, &c.

Dr. Houghton's PEPSIN is sold by nearly all the dealers in fine drugs and Popular Medicines, throughout the United States. It is prepared in Powder and in Fluid form—and in Prescription vials for the use of Physicians.

Private Circulars for the use Physicians, may be obtained of Dr. Houghton or his Agents, describing the whole process of preparation and giving the authorities upon which the claims of this new remedy are based. As it is not a Secret Remedy no objection can be raised against its use by Physicians in respectable standing and regular practice. Price One Dollar per bottle.

☞ Observe this.—Every bottle of the genuine PEPSIN bears the written signature of J. S. HOUGHTON, M. D., sole proprietor, Philadelphia, Pa. Copyright and Trade Mark secured.

Another great advantage is, by keeping a copy of the impression, we can at all times fit our customers from all parts of the country.

We invite all who desire a perfect fit in a Hat, to call and leave an impression of their head; and all those who take pleasure in witnessing the inventions of the ingenious, to call and see the operations of this curious instrument.

Having adopted the CASH SYSTEM (which all will readily acknowledge to be the best,) we are enabled to sell the best Silk Hat made, at the extreme low price of $4.25; surpassing any $5 Hat sold in this city.
